Index

SOCIAL BIOLOGY

Volume 20, 1973

ABORTION
—induced: and birth weight of later liveborns, 76, 80–81; rate of in Chile, 155–156, 158; reported as spontaneous in New York, 392
—spontaneous: among Samaritans, 64–65; and birth weight of later liveborns, 76, 80–81; and chromosome abnormalities, 86; rate of in Chile, 155; and parental chromosome abnormalities (abs.), 365; life table estimates of, 375–403
Academic achievement: and family size, 454–459
Adaptation: in behavior and biometrical genetics (abs.), 237
Africa: infant precocity in (abs.), 364
Ahern, F. M.: abstract, 236
Allergy: genetic risk of inheritance of (abs.), 235
American Eugenics Society: a new name for, 1
Apache: statistical model for social structure of, 422–425
Arabs: birth weights among in Israel, 71–81
Are Our Descendants Doomed? Technological Change and Population Growth, 476–478
Assessment of Population Affinities in Man, 113–116
Assortative mating: and physiognomic homogamy, 448–453. *See also* Nonassortative mating

BAJEMA, CARL JAY: review, 224–225
Barbados: stability of unions and fertility in, 143–150
Behavior: adaptation in and biometrical genetics (abs.), 237; of rats and biological fitness (abs.), 237. *See also* Behavior genetics
Behavior and Environment: The Use of Space by Animals and Men, 119–121
Behavior genetics: methodologies in human studies discussed, 241–245, 276–279; and schizophrenia studies, 246–253, 254–265, 266, 272–275; and IQ studies, 266–272; disciplinary barriers to progress in (abs.), 486
Behavior Genetics Association: 1971 symposium of, 239–240
Bernstein, I. A.: review, 127–129
Biochemical Responses to Environmental Stress, 127–129
Biological Imperatives, The. Health, Politics, and Human Survival, 225–226
Biology and Knowledge, 116–117
Biometrics: and study of intelligence and schizophrenia, 266–272; and genetic analysis of behavioral adaptation (abs.), 237
Birth order: and stillbirth ratios, 173–174
Birth rates: and effect of urbanization and industrialization, 89–102
Birth weight: among Ashkenazis, non-Ashkenazis, and Arabs in Israel, 71–81; effect of smoking on, 75, 79–80; effect of gestational age on, 79
Black Child, White Child, 226–227
Blacks: impact of VD on fertility of, 2–19; fertility differentials among black doctorates, 20–29; childlessness among, 139, 140–141; and immunoglobin G levels (abs.), 235; and precocity of African infants (abs.), 364; socioeconomic status and intellectual performance of, 367–374
Blood groups: and effects of maternal-fetal incompatibility, 79
Bois, E.: abstract, 236
Brain Mechanisms and Mind, 125–126
Brewen, J. G.: abstract, 365
Brothwell, D. R.: abstract, 131
Brown, Harrison: reviews, 222–223, 476–478

CAMPBELL, BERNARD: review, 358–360
Canada: kindred with satellited Y in (abs.), 485
Caracas: fertility in, 460–472; ideal and desired family size in, 468, 469, 470–471
Chase, Alan: review, 225–226
Childlessness: heterogeneity of childless families, 133–138; relationship of income to, 139–142; among blacks, 139, 140–141; in Egypt, 326–327; interpretation of statistics on, 350
Chromosomes: aberrations of and parental age, 83–85; aberrations of in young Danish male prisoners (abs.), 130; of *Drosophila ananassae* strains (abs.), 237; anomalies of in abortion-prone marriages (abs.), 365; radiation effect on (abs.), 365; radiation induced breakage in (abs.), 485; inheritance of satellited Y in kindred (abs.), 485; and heterosis effect of XX in females (abs.), 485–486. *See also* G-trisomy, Mutations.
Competition: defined (abs.), 236–237
Contraception. *See* Family planning, IUD, Oral contraception.
Costa Rica: utilization of family planning clinics in, 160–172
Culture: and sensitivity to flickering light, 212–217

DARLINGTON, P. J., JR.: abstract, 236–237
Death rates: affected by urbanization and industrialization, 89–102
Demark: chromosome aberrations in young male prisoners in (abs.), 130
Demographic Measures and Population Growth in Arab Countries, 223–224
Demography: of historical Indian population of Tlaxcala, Mexico, 40–50; effect of urbanization and industrialization on birth and death rates,

89–102; and genetic structure of Greater Leech Lake Reservation Ojibwa population, 427–437; contributions of P. K. Whelpton to, 438–447
Dissertation on the Poor Laws by a Well-wisher to Mankind, A, 361–362
Down's syndrome: and effect of changing parental age in Japan, 83–85. *See also* G-trisomy syndrome
Drosophila ananassae: crosses of and heterosis (abs.), 237
Drugs of Abuse: Their Genetic and Other Chronic Nonpsychiatric Hazards, 126–127

ECOLOGICAL NICHES: definition of (abs.), 236–237
Egypt: occupational fertility differentials in, 324–328; educational fertility differentials in, 328–331; cohort fertility differentials in, 331–333
Eibl-Eibesfeldt, Irenäus: review, 230–232
Eklund, J.: abstract, 365
Elias, M. F.: abstract, 486
Elston, R. C.: abstract, 364
England: mortality ratios in, 1910–1950, 91
Environmentalism: and hereditarianism, 281–282
Enzyme polymorphism: importance of substrate variability to (abs.), 365–366
Epstein, J.: abstract, 365
Epstein, Samuel S.: review, 126–127
Equality: and genetic diversity, 280–281, 286–288; of opportunity and meritocracy, 282–284; and aptitude aggregations, 284–286
Esser, Aristide, H.: review, 119–121
Evolution: and development of marker genes (abs.), 236
Ewens, W. J.: abstract, 132

FAMILY PLANNING: among Mexican-Americans, 37, 38; among Rhode Island women, 51–63; genetic consequences of in Japan, 82–88; in Chile, 156–157, 158; utilization of clinics for in Costa Rica, 160–172; users of clinics for in U.S., 161; justification for genetic counseling in (abs.), 235; and population control, 416–420
Family size: desired, ideal, and intended in New York clinic population, 417–419; and high-school grades, 454–456; and university grades, 456–459; ideal and desired in Mexico City and Caracas, 468–469, 470–471
Fertility: impact of VD in U.S. black population, 2–19; differentials in among black doctorates, 20–29; among Mexican-Americans, 30–39; in nineteenth-century Tlaxcala, Mexico, 45; and age at marriage in India, 103–110; and stability of unions in Barbados, 143–150; in rural Chile, 151–159; in families with chronic or genetic illness (abs.), 235; and occupational and educational differentials in Egypt, 323–333; in Mexico City and Caracas, 460–472
Fetal deaths: life table estimates of, 375–394, 396–403; and early prenatal care, 394–396
Finland: population structure of (abs.), 236; Rh program in (abs.), 365
Fitness: and modifier genes (abs.), 236; and water escape in rats (abs.), 237
Flickering light: racial and cultural differences in sensitivity to, 212–217
Fox, Robin: review, 479–481
France: birth order and stillbirth ratios in, 177, 179, 183

GENE FLOW: of Spaniards into Tlaxcala, Mexico, 47, 48, 49
Gene mutations. *See* Mutations
Genetic counseling: justification for in family planning (abs.), 235; and risk in families with allergy (abs.), 235
Genetic diversity: and human equality, 280–281; and equality of opportunity, 282–288
Genetic Factors in "Schizophrenia," 122–123
Genetics: symposium on genetic load, 112; phenotypic variation in sickle cell trait (abs.), 130–131; model for handedness (abs.), 131; and transmission of semi-continuous traits (abs.), 131; population analysis of multilocus systems (abs.), 131–132; substitutional load in a finite population (abs.), 132; and familial incidence of threshold traits (abs.), 235; and marker genes in Finland (abs.), 236; and role of modifier genes (abs.), 236; of uricemia in three Haute-Guayne Indian tribes (abs.), 236; and behavioral adaptation (abs.), 237; and schizophrenia, 246–252, 254–265, 266, 272–275, 276–279; and IQ, 266–270, 271–272, 284, 285; syndactyly in Utah, 336–346; linkage of DZ twins, psychosis, and blood groups (abs.), 364; relationship between myopia and giftedness (abs.), 364; deficient DNA repair in human progeroid cells (abs.), 365; hazards of ionizing radiation in (abs.), 365; structure of Greater Leech Lake Reservation Ojibwa population, 427–437; mortality and inbreeding in Japan (abs.), 486; and variation of mental characters in Alsatian dogs (abs.), 486; and selective neutrality of polymorphisms (abs.), 487. *See also* Behavior genetics, Chromosomes, Gene flow, Genetic counseling, G-trisomy syndrome, Mutations
Genetics and American Society, 351–352
Gestational age: effect of on birth weight, 9
Gevers, R. H.: review, 233–234
Gonorrhea: prevalence of 8–9, 11, 12; public knowledge about, 11; and black natality trends after 1936, 11–12; government control programs for, 12; effect of on black fertility, 17
Gottesman, Irving I.: review, 360–361
Group Selection, 121–122
Grundbacher, F. J.: abstract, 235
G-trisomy syndrome: causes of, 404; reproduction in families with, 406; birth order of patients with, 406, 407, 411; sex ratio in, 406, 407, 411; and parental age, 406, 407, 411, 413; birth intervals in families with, 407–408, 412–413; twinning in, 407, 412; parental education and income in families with, 408–410; malignancy in ancestors in families with, 410–411, 413. *See also* Downs syndrome

HARTE, JOHN: review, 117–119
Haute-Guayne: uricemia in three Indian tribes in (abs.), 236
Hereditarianism: and environmentalism, 281–282
Heredity and Development, 221–222
Heterosis: and crosses of *Drosophila ananassae* (abs.), 237; and X chromosomes in females (abs.), 484–486
Hook, E. B.: abstract, 485–486
Hopi: statistical model for social structure of, 425
Huizanga, J.: review, 113–116
Hutchings, Edward, Jr.: review, 476–478

ILLEGITIMATE BIRTHS: in Chile, 154
Imaizumi, Y.: abstract, 130
Immunoglobins: and rheumatic fever susceptibility (abs.), 235; and post-delivery innoculation of Rh mothers in Finland (abs.), 365
Imperial Animal, The, 479–481
Inbreeding: among the Samaritans, 66–69; in Finland (abs.), 236; and mortality in Japan (abs.), 486; in Switzerland (abs.), 386
India: marriage age and first birth in, 103–110
Indians. *See* Apache, Hopi, Tlaxcala
Industrialization; and birth and death rates, 89–102
Institute for Scientific Information, 473
Intellectual performance: related to race and socioeconomic status, 367–374. *See also* IQ.
International Titisee Workshop: abstract, 130
IQ: and genetic-environment interaction in twins, 266–270; heritability of, 271–272; and genetic diversity, 284; and occupational status, 285; and effect of small mean differences in nonassortative mating, 347–349. *See also* Intellectual performance
Israel: reproduction of Samaritans in, 64–71; birth weights of Ashkenazis, non-Ashkenazis, and Arabs in, 71–81

JAPAN: genetic consequences of lower parental age in, 82–88; effect of urbanization and industrialization on birth and death rates in, 89, 92, 96–98; kinship coefficient and marital distance in (abs.), 130; birth order and stillbirth ratios in, 177, 179, 181; mortality and inbreeding in (abs.), 486
Jews: birth weights among in Israel, 71–81
Johnson, G.: abstract, 365
Jordan: reproduction of Samaritans in, 64–71

KÄOSAR, M. E.: abstract, 365
Kaplan, Arnold R.: review, 122–123
Karlin, S.: abstract, 236
Karlsson, J. L.: abstract, 364
Kinship: coefficient of in Japan and marital distance (abs.), 130

Laboratory Methods in Physical Anthropology, 123–124
Lalor Foundation: research fellowship program for 1974, 220
LeCam, Lucien M.: review, 355–358
Leech Lake Reservation: demographic and genetic structure of, 427–437
Leiderman, P. H.: abstract, 364
Levy, J.: abstract, 131
Lewontin, R. C.: abstract, 487
Life tables: for Mexico, 93–94; and estimates of fetal death, 375–403
Love and Hate. The Natural History of Behavior Patterns, 230–232
Lubs, M. E.: abstract, 235
Ludmerer, Kenneth M.: review, 251–252
Lynch, Henry T.: review, 232–233
Lyons, L. B.: abstract, 485

Man, Mind and Heredity. Selected Papers of Eliot Slater on Psychiatry and Genetics, 360–361
Maple syrup urine disease: and cultured human fibroblasts (abs.), 485
Marriage age: and first birth in India, 103–110; and fertility in Mexico City and Caracas, 462–463, 470–471
Marx and Engels on the Population Bomb, 124–125
Maxson, S. C.: abstract, 237
Maynard-Smith, John: review, 352–355
McLaren, Ian A.: review, 121–122
Meek, Ronald L.: review, 124–125
Mental deficiency: and hereditary female reproductive malfunction (abs.), 236
Meritocracy: and equality of opportunity, 282–284
Mexican-Americans: fertility patterns among, 30–39
Mexico: historical-demographic analysis of Tlaxcala, 40–50; effect of urbanization and industrialization on birth and death rates in, 89, 93–96; mortality in (1920–1950), 97; fertility differentials in Mexico City, 460–472; ideal and desired family size in Mexico City, 468, 469, 470–471. *See also* Mexican-Americans
Mexico City. *See* Mexico
Mindel C. Sheps Award, 474
Moore, John A.: review, 221–222
Morbidity: effect of social status and status inconsistency on, 196–202
Mormons: genetic study of syndactyly among, 335–346; university grades and family size among, 456–459
Mortality: in Mexico (1920–1950), 97; of infants in Japan, 97; and inbreeding in Japan (abs.), 486
Morton, N. E.: abstract, 486
Mutations: and effect of changing parental age in Japan, 85–87; discussion of (abs.), 130
Myopia: and genetic relationship with giftedness (abs.), 264

NAIROBI: infant precocity in (abs.), 364
Nance, W. E.: abstract, 130–131
National Fertility Study: and use of oral contraceptives, 51
Natural Regulation of Animal Populations, 121–122
Natural selection: and modifier genes (abs.), 236; and myopia (abs.), 364
Natural Selection in Human Populations, 224–225
Neurosciences Research Symposium Summaries. Volume 5. An Anthology of Work Session Reports from the Neurosciences Research Program Bulletin, 228–230
Nevanlina, H. R.: abstract, 236
Nielsen, J.: abstract, 130
Nonassortative mating: and effect of small mean IQ differences, 347–349
Norway: linkage of DZ twins with psychosis in (abs.), 364

OATLEY, KEITH: review, 125–126
Ojibwa: demographic and genetic structure of on Greater Leech Lake Reservation, 427–437
On Evolution, 352–355
Oral contraceptives: use of by Rhode Island women (1967–1970), 51–63
Origins of Human Social Relations, 484

PARENTAL AGE: effect of on chromosomal aberrations and mutations, 82–88
Patient Earth, 117–119

Perspectives in Cytogenetics, 124
Physiognomic homogamy: and assortative mating, 448–453
Physiology and Pathology in the Perinatal Period, 233–234
Piaget, Jean: review, 116–117
Polydactyly: associated with syndactyly, 336–341, 343–346
Population: trends in state of Tlaxcala, Mexico, 42–45; structure of in Tlaxcala, 45–47; effect of industrialization and urbanization on, 89–102; by age and sex in Chile in 1967, 153; genetic structure of in Finland (abs.), 236; control of and family planning, 416–420
Population Economics. Selected Essays of Joseph J. Spengler, 361–363
Population: Perspective, 1971, 222–223
Porter, Judith: review, 226–227
Poverty: effect of on morbidity, 197–202
Premarital pregnancy: record linkage analysis of in Indiana, 185–194
Primate Evolution. An Introduction to Man's Place in Nature, 483–484
Proceedings of the Sixth Berkeley Symposium on Mathematical Statistics and Probability. Volume V. Darwinian, Neo-Darwinian, and Non-Darwinian Evolution, 355–358
PTC tasting: among university students, 218–219

Quality of Life: tools for measuring, 289–290; definitions of, 290–291; objective and subjective indicators of, 291–292; relative importance of aspects of, 292–293; model for measuring, 293–295; constructing social indicators for measuring, 295–297

Race: and canonical analysis of facial variation (abs.), 131; and sensitivity to flickering light, 212–217; related to socioeconomic status and intellectual performance, 367–374
Radiation: effects of on human chromosomes (abs.), 365; and chromosomal translocations in mouse and man (abs.), 365; and breakage in human lymphocyte chromosomes (abs.), 485
Rats: behavior and biological fitness of (abs.), 237
Reich, T.: abstract, 131
Reproduction: female hereditary malfunction in related to mental deficiency (abs.), 236
Reuterwall, C.: abstract, 486
Rheumatic fever: and immunoglobin G levels (abs.), 235
Rh factor: and birth weight of infants, 79; and national innoculation program in Finland (abs.), 365
Rhode Island: use of oral contraceptives in, 51–63
Ruys, J. H.: review, 233–234

Samaritans: history of, 64; abortion among, 64–65; reproduction among, 65–66; inbreeding among, 66–69
San Bernardino Contla: historical demography of, 40–50
San Roman, C.: abstract, 485
Schaffer, H. R.: review, 484
Scheinfeld Center for Human Genetics, 474–475
Schizophrenia: erratum on perinatal conditions and infant development of children with affected parents, 111; phenotype classification in, 241; genetic aspects of, 246–252; genetic analysis of, 254–265; a biometrical genetic approach to, 266, 272–275; study methodologies of discussed, 276–279; possible linkage of with blood groups (abs.), 364
Schmitt, Francis O.: review, 288–230
Secretor status: and rheumatic fever susceptibility (abs.), 235
Selection: *See* Natural selection
Sendai virus: and maple syrup urine disease (abs.), 485
Sex predetermination: effects of on sex ratio, 203–211
Sexual Selection and the Descent of Man, 1871–1971, 358–360
Sheps, Mindel C.: award, 474
Shields, James: review, 360–361
Sickle cell trait: phenotype variation in (abs.), 130–131
Simons, Elwyn L.: review, 483–484
Singh, B. N.: abstract, 237
Sinnock, P.: abstract, 131–132
Skin, Heredity, and Malignant Neoplasms, 232–233
Smith, C.: abstract, 235
Smith, Robert S.: review, 361–363
Smoking: effect of on birth weight, 75, 79–80
Social accounting. *See* Quality of life
Social indicators: construction of models for, 291–297
Social structure: statistical model for applied to Apache and Hopi, 421–426
Society for the Study of Social Biology: goals of, 1
Socolow, Robert H.: review, 117–119
Spaniards: effect of on Indian population of Tlaxcala, Mexico, 42–44, 47, 48–49
Sterilization. *See* Vasectomy
Stillbirth ratios: related to age of childbearing, 173–184
Strobbe, Maurice A.: review, 481–483
Sultz, H. A.: abstract, 235
Swedlund, Alan C.: review, 123–124
Sweezy, Alan: review, 222–223
Switzerland: genetic structure of (abs.), 486
Syndactyly: type of, 335–336; family studies of in Utah, 336–341; inheritance of, 341–346
Syphilis: prevalence data for blacks and whites (1880–1935), 4–9; and childlessness among blacks, 7–8; government control programs for, 9–11; public knowledge about, 11; and black natality trends after 1936, 11–12; physiological impact of on black fertility, 13–18

Tanaka, K.: abstract, 486
Tiger, Lionel: review, 479–481
Tlaxcala: historical demographic analysis of Indians of, 40–50
Townsend, Joseph: review, 361–362
Trisomies: incidence of (abs.), 86. *See also* G-trisomy syndrome
Twins: concordance rates for allergy in (abs.), 235; measures of concordance in (abs.), 235; use of in behavior genetics studies, 242–244; in studies of schizophrenia, 247–248, 251–252, 266, 272–275; in studies of intelligence, 266–272; linkage analysis of DZ twins with psychosis (abs.), 364; environmental conditions and IQ of, 367; and prevalence of G-trisomy syndrome, 407

Understanding Environmental Pollution, 481–483
Urbanization: effect of on birth and death rates, 89–102
Uricemia: in three Haute-Guayne Indian tribes (abs.), 236
Use of Cannabis, The, 227–228

VASECTOMY
—in U.S.: increasing use of for birth control, 298, 303, 308; changes in sexual life after, 299–300; and marital harmony, 300; attitudes toward, 300–301; postoperative complications of, 301, 305–306; eligibility requirements for, 303–304, 308–314; failure rate in, 304; characteristics of clients seeking, 305; time to reach azoospermia after, 306; psychological adjustment to, 315
—in Malaysia: incidence of psychological disturbances after, 316–319, 321; ill effects reported after, 317; reasons for having, 319–320; decision making process in choosing, 320–321
VD. *See* Gonorrhea, Syphilis, Venereal disease
Venereal disease: prevalence data among blacks and whites (1880–1935), 4–9; and childlessness among blacks, 7–8; government control programs for, 9–11; public knowledge about, 11; and black natality trends after 1936; 11–12; physiological impact of on black fertility, 12–18
Venezuela. *See* Caracas
Vogel, F.: abstract, 130

WADE, WILLIAM D.: review, 123–124
Wales: mortality ratios in (1910–1950), 91
Weiner, J. S.: review, 113–116
Whelpton, P. K.: contributions of to demography, 438–446; selected bibliography of, 447
Wilcock, J.: abstract, 237
Williams, George C.: review, 121–122
World Health Organization: use of cannabis (rev.), 227–228
Wright, Stanley, W.: review, 124

XXY: incidence of in young male Danish prisoners (abs.), 130
XYY: incidence of in young male Danish prisoners (abs.), 130

Contents

SOCIAL BIOLOGY
Volume 20, 1973

Volume 20 **March 1973** **No. 1**

A New Name—Society for the Study of Social Biology (formerly The American Eugenics Society) 1

Impact of VD on the Fertility of the U.S. Black Population, 1880–1950, *Joseph A. McFalls, Jr.* 2

Differentials in Fertility Among Black Doctorates, *Kent G. Mommsen* 20

Fertility Patterns Within the Mexican-American Population, *Peter Uhlenberg* 30

Historical-Demographic Analysis of Indian Populations in Tlaxcala, Mexico, *Robert A. Halberstein, Michael H. Crawford, and Hugo G. Nutini* 40

Changes in the Use of Oral Contraceptives by Rhode Island Women Between 1967 and 1970, *Leon F. Bouvier* 51

Reproduction and Inbreeding Among the Samaritans, *D. F. Roberts and Batsheva Bonne* 64

Birth Weight in Various Population Groups in Israel, *Jenni Tsafrir and Isaac Halbrecht* 71

Effect of Changing Parental Age Patterns on Chromosomal Aberrations and Mutations, *Ei Matsunaga* 82

Influence of Urbanization and Industrialization on Birth and Death Rates, *Michael D. Lebowitz* 89

Brief Reports

Interval Between Age at Marriage and First Birth in India, *Kanti Pakrasi and Chittaranjan Malaker* 103

Communications

Erratum and Further Analysis: "Perinatal Conditions and Infant Development in Children with Schizophrenic Parents," *Sarnoff A. Mednick, Elaine Mura, Fini Schulsinger, and Birgitte Mednick* 111

Symposium on the Human Genetic Load 112

Book Reviews

The Assessment of Population Affinities in Man (Weiner and Huizinga), *Kenneth A. Bennett* 113

Biology and Knowledge (Piaget), *John D. Rainer* 116

Patient Earth (Harte and Socolow), *Robert Leo Smith* 117

Behavior and Environment: The Use of Space by Animals and Men (Esser), *William Wood and Jerry Hirsch* 119

Group Selection (Williams) and Natural Regulation of Animal Populations (McLaren), *Peter H. Klopfer* 121

Genetic Factors in "Schizophrenia" (Kaplan), *John D. Rainer* 122

Laboratory Methods in Physical Anthropology (Svedlund and Wade), *Edward V. Glanville* 123

Perspectives in Cytogenetics (Wright, Crandall, and Boyer), *Orlando J. Miller* 124
